AN ENGLISH MEDIUM CO-EDUCATIONAL DAY CUM RESIDENTIAL SCHOOL

PROSPECTUS

CHAIRMAN'S MESSAGE

Education is the basis of all progress. It is for this very reason that we forayed into education. Over the past decades of experience has taught us that progress is possible only, if men and women are equally well-educated.

The entire purpose of education is not to restrict itself to imparting bookish knowledge only but inculcate humanitarian values like wisdom, compassion, courage, humanity, integrity and reliability in a student.

We, just like you, believe in Holistic development for your child, encompassing academics, co-curricular activities, sports education and life-skills learning. Our endeavor is to strike a balance between state-of-the-art infrastructure and an internationally acceptable education.

At St. Paul's School we impart education that is based on conscience and we rear to breed the young minds that are bustling with self confidence, motivation and ever ready to take up challenges.

The campus, sports and academic facilities all bear testimony to this effort. In order to promote an internationally acceptable education, our key focus has been on faculty development – providing continuous teacher training in order to deliver real value education and excellence in academics. Teachers are trained not only to teach well but are also expected to inspire confidence and trust in their students and become role models. Further, the School inculcates in the students a respect for tradition and ensures discipline and good manners.

St. Paul's School encourages students to learn about themselves and their constantly changing environment while at the same time offering support and guidance as they practise decision – making and social skills.

We are confident that this school is the best place for your child. We welcome your active interest and involvement in the progress and activities of your child. We look forward to your continuous support.

– Bannalal Jat

From the Desk of THE DIRECTOR

Dear parents,

“There are two types of educations, one that teaches how to make a living and the other how to live”

On behalf of the Management, I can assure you that we will strive tirelessly to make St. Paul's Senior Secondary School, Abu Road, an institution par excellence, as I believe that the greatest gift we can give to our children is to empower and prepare them through quality education so that they have a head start when they enter the competitive world full of challenges. This kind of education system will generate job creators instead of job seekers.

– Sanwarmal Jat

From the Desk of THE PRINCIPAL

Dear Parents

Thank you for your interest in St. Paul's School. We are very proud of our school and encourage you to use the atmosphere as an medium of communication in order to enhance the horizons of knowledge of our dear ones with each others help. Kindly go through all the entries made in the almanac on all the working days. Please pay special attention to the teachers' remarks and advise your ward accordingly. Their turn out, attendance and late coming records can be read from the last pages of the school diary. You are requested to check the bag of the child in order to ensure that all the relevant books are kept in the school bag as per the time table of the day. Kindly give your child healthy Tiffin. We believe that all the individuals have the capacity to improve and learn. All people develop at different rates and have expertise in a wide range of

subject areas with unique learning styles. Our programme focuses professional attention on each student and challenges them to achieve their maximum potential. The whole child is our focus and learning and academic achievement from a significant part of the development of a loving, compassionate, healthy and thoughtful world citizens.

All children develop at their own pace. A pace we accelerate for all students when they are ready. We don't believe single sittings of examinations should judge the future of children. Our rigorous approach to learning insures that we view children and learning as works in progress rather than “snapshots” of on singular endeavour. We are unique in this adventure of learning. This school is committed to continuous improvement. We hire only the most qualified teachers and seek students and families to join our community who are committed to the development of the whole child. Our school to a large extent accomplishes this with a larger perspective of education. Our philosophy is of reducing pressure and retaining a student hopes and self esteem, without which education loses its purpose. At our school, students are not competing with each other but with themselves by constantly raising their expectation and successfully achieving those targets. This makes them not only highly individual driven but also sensitive and empathetic to other's failures, a very important factor which shapes them into fine human beings.

Our school carefully nurtures the tangible and the intangible strengths of each student, carefully preparing them to face challenges of a competitive world. We trigger their curiosity and encourage them to step into unfamiliar grounds without fear. This gives a student an edge over their peers, as they are taught not to fear failure and that failure is an important step towards achievement. We make learning an enjoyable experience that can never be forgotten but provides points of reference in one's future.

I hope the information provided on this almanac is useful.
